* “Newspaper-Constructed” material (also known as “Pub. Set” advertising). The definition of a newspaper-constructed ad is one that will be composed by the newspaper. This includes ads that are constructed from the submitted layout into production form, or existing ads that require copy or illustration changes.

** Final corrections for newspaper-constructed ads should be limited to minor text changes (phone numbers, addresses, expiration dates, prices, etc.) and substitution of standing art consistent with original ad design. Changes to layout including moving or changing size of art elements cannot be accepted at this stage.

*** Electronic ads must be in a PDF format with the fonts embedded. PDF is a flexible, cross-platform file format that accurately displays and preserves fonts, page layouts and other graphical elements in a document.
